

Guests

Representatives from the Colonial Williamsburg Foundation and the Mariners Museum visited the lab and learned how to operate the Scanning Electron Microscope.

Dina, a summer employee and a WM student came by the labs to visit over winter break.

Amy and the rest of the crew welcome Rosa Alejandra Lukaszew, our new VMEC Associate Professor, WM Applied Science & Physics Departments.

Hampton Roads Academy Visits

Stephanie Parker, a summer employee at the ARC, brought her High School Biology class by to look at the microscopes and examine an onion root sample for a class project.

The class used the Hirox to learn about microscopes, and the Zeiss Microscope to study an onion root

Hirox

Judd Compton, a WM undergrad came to use the Hirox microscope. He brought Sarah Colts, Chemistry, and Jaeton Glover, Applied Science to work with him.
